PART
NUMBER:

PRV53-MK

SPECIFICATION SHEET

PRV53-MK WATER TANK

- Tray Tank With Mount Kit
- Roto Moulded Polyethylene- Food Grade
- Mount Kit Includes: Angle Brackets and Load Rated, Ratchet straps
- 1/2" BSP Breather Thread, 1/2" BSP Outlet Thread, 50mm Screw Cap With Air Valve
- Approximate Usable Storage- 53 Litres
- Size: L x 740mm, W x 345mm, H x 220mm
- Filling and Fitting Instructions:

*Experience the
Poly Difference!*

Bolt base plate down with ratchet straps underneath. Fasten using ratchet straps.

This tank is not to be pressure filled from a hose that is connected from mains pressure to the tank that has a larger flow rate than the breather. Doing so will cause the tank to inflate and split and will void warranty.

We recommend to use plastic/nylon fittings in this tank not brass.

The stated litre capacity is by cubic measurements and is a guide only. Usable litre capacity is determined by the way the tank is mounted.
