PART  
NUMBER:

DPRV30S

## SPECIFICATION SHEET

### DPRV30S DIESEL TANK

- Slimline Mudguard Tank
- Roto Moulded Diesel Grade Yellow Polyethylene
- 3/4" and 1/2" Brass Fittings and 1/2" Brass Tap
- Tank is suitable for left and right hand fitting
- 2" Inlet Cap
- 1/2" Breather
- Mount by bolting through metal brackets on ends of tank (brackets supplied with tank)
- Approximate Usable Storage - 29 Litres
- Size: L x 600mm, W x 200mm, H x 400mm
- Fitting and Filling Instructions:

*Experience the  
Poly Difference!*

Template drill holes through a sturdy mount & fix with brackets supplied.

This tank is not to be pressure filled from a hose that is connected from mains pressure to the tank that has a larger flow rate than the breather. Doing so will cause the tank to inflate and split and will void warranty.

We recommend to use plastic/nylon fittings in this tank not brass.

The stated litre capacity is by cubic measurements and is a guide only. Usable litre capacity is determined by the way the tank is mounted.

TANK MUST BE FLUSHED BEFORE INITIAL USE
