PART
NUMBER:

PRV80S

SPECIFICATION SHEET

PRV80S WATER TANK

- Slimline Tank
- Roto Moulded Polyethylene - Food Grade
- 3/4" Brass Fittings & 3/8" Inlet Cap
- Pump & Mount Kit (Optional)
- Approximate Usable Storage- 80 Litres
- Size: L x 1080mm, W x 835mm, H x 115mm
- Filling Instructions:

*Experience the
Poly Difference!*

This tank is not to be pressure filled from a hose that is connected from mains pressure to the tank that has a larger flow rate than the breather. Doing so will cause the tank to inflate and split and will void warranty.

We recommend to use plastic/nylon fittings in this tank not brass.

The stated litre capacity is by cubic measurements and is a guide only. Usable litre capacity is determined by the way the tank is mounted.

TANK MUST BE FLUSHED BEFORE INITIAL USE
