

Cup And Saucer

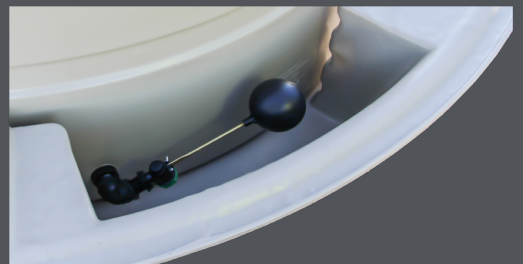

**SMARTER
THAN YOUR
AVERAGE TANK**

5000L Tank and Trough Combination

Ensures large watering reserves at all times. Keeps your water at its best quality - cooler and cleaner keeps it protected from algae growth. Waters large herds of stock at the same time. Easy to relocate. The Tank and Trough combo is simple and lasting - no need for those problematic installations from the tank to the trough.

- Tie down lugs
- Strong construction
- 1" ball valves and fittings
- UV stabilised polyethylene
- Sweep out point in trough
- Fitted with floating level indicator
- 50mm drain for easy cleaning
- Suitable for sheep, goats and cows
- Bulk water storage at point of need
- Can be configured for molasses feeding
- Internal pipework, stock damage protection
- Tank water level controlled by internal float valve
- Trough water level controlled by covered float valve

BUILT SMART, BUILT TO LAST.
